How-To Use unitedstreaming Videos in Windows Movie Maker

Materials: unitedstreaming Account, Windows Movie Maker, Internet access

Retrieving and Downloading Your Video:

- 1. Go to http://unitedstreaming.com
- 2. Log-in with your user name and password.
- 3. Type in a keyword, or search for your movie title or grade level.
- 4. Click "go"
- 5. Click on the title of the video you wish to use.
- 6. **Right click** the "d" button to download the video. Choose **Save target as** and save your video in the location of your choice.

Using the Video in Windows Movie Maker:

1. Go to Start, Programs, Accessories and open Windows Movie Maker. Your screen will appear as below:

www.unitedstreaming.com Discovery Education One Discovery Place, Silver Spring, MD 1-800-323-9084

united streaming

- 2. In the Movie Tasks Panel, click on Import Video.
- 3. Go to "Look In" to retrieve your saved video from your file.

Drag media to the storyboard to begin making a movie. ∢	

- 4. **Double Click** on the video title or click **Import**. The completed file will display in the Collections Panel.
- 5. To begin creating your video, drag the clips in the collections panel down to the story board.
- 6. Remember to save your project frequently. Your initial saves will save the collection links and Timeline/Storyboard settings. The initial file extension will be **.mswmm**. This will not allow you to view your movie as a completed project yet.
 - a. Go to File, Save Project As.
 - b. **Type a name** for your project and click **Save**.

Making the Movie Your Own:

***When creating your personal touches, **preview** at anytime by clicking on **Play** in the **Preview Panel**.

To add a title at the beginning:

- 1. From the Movie Tasks Panel, click Makes titles or credits.
- 2. Click **Title at Beginning**
- 3. **Type** the text for the title.
- 4. Change the text and font by clicking text font and color.
- 5. To add animation effects, click on **Change the title animation**.
- 6. One your title screen is complete, click **Done, add title to movie**.
- 7. Change how long the title stays on the screen from the **timeline view**. Point to the **right-hand side** of the title clip. When the mouse pointer changes to a **double-red arrow**, click and drag until you have reached your desired length.

To add transition slides:

You can add transitions between titles, two video clips, or pictures.

- 1. From the Movie Tasks Panel, click Video Transitions
- 2. **Select** a transition and **drag** it to the Storyboard between the two clips on the Transitions track.

3. To see your Collections again, from **Collections pull down bar** at the top of the screen, choose **Collections**. The Collections will appear in the center papel as they were before.

To add Video Effects:

Video effects can be applied to individual video clips, titles, or pictures.

- 1. From the Movie Tasks Panel, click View Video Effects
- 2. Drag the effect you chose and drop it on top of the video, picture or title in the Storyboard.

To add credits to your movie:

- 1. From the Movie Tasks Panel, click Makes titles or credits.
- 2. Click Credits at the end
- 3. **Type** the text for the credits.
- 4. Change the text and font by clicking text font and color.
- 5. To add animation effects, click on **Change the title animation**.
- 6. One your title screen is complete, click **Done, add title to movie**.
- Change how long the credits stay on the screen from the timeline view. Point to the right-hand side of the title clip. When the mouse pointer changes to a double-red arrow, click and drag until you have reached your desired length.

Saving Your Movie

- 1. Save the project again, as instructed above..
- 2. Go to File, Save Movie File
- 3. Choose My Computer and click on Next
- 4. Enter a name for your movie and choose a location to save it.
- 5. Click on Next.
- 6. The default setting is **Best Quality of Playback on My Computer**. You can save like this or *use less file space by* clicking on **Show More Choices**, then click on **Other Settings**, then click the button next to **Best fit to file size**, or you can choose **Other Settings** for different options.
- 7. Click on Next once you have chosen your file setting.
- 8. The movie file will save.
- 9. Click on Finish
- 10. You are ready to view your movie!
