

2007-2008 Technology Proficiency IV

Final Project

Each participant is required to create a public resource List.

First:

Type in a Microsoft Word document a summary explaining the intent of your original List of Destiny resources. Include: your name, campus name, subject and grade level you teach or your position in the district.

Your summary should answer the following questions:

- ⊗ Briefly describe the purpose for this collection of resources.
- ⊗ What grade level/subject or K12 educational topic will this List address?
- ⊗ Will this List be for use by teachers primarily or will you direct students to use this List to complete a project?
- ⊗ How will this List be helpful to other educators?
- ⊗ Upload your summary to the [Final Project Summary](#) link in Module Three.

Second:

- ⊗ Log in to your campus Destiny database.
- ⊗ Create a new List. (If you've forgotten how to create a new List, review Module Three - Activity Three - My Lists.)
- ⊗ Make it a public list.
- ⊗ Include in your List results from searches using [your campus Destiny](#) database.
- ⊗ Be sure to mark your List as a [public List](#).
- ⊗ Email your instructor when you have finished all course work.
