United Streaming Video Links on a Student Web Page (for use in SCommon)

For a link not related to a United Streaming "Assignment"

Please read before beginning!

If you want the students to view a video that you have added to a United Streaming Assignment use the directions on the other side of the Help Card.

The directions on this side of the Help Card will enable a video to be opened directly in Windows Media Player, rather than through a United Streaming login. This type can be used as a Prof. III subscription link. DO NOT LINK THIS TO YOUR CLASSROOM WEB PAGE. Copyright violation!!!!

---

1. Log in to United Streaming.

2. Locate a video.

3. Start the video or video segment, but do not go to show full screen.

---

4. Put the mouse in the middle of the video that is playing and right-click.
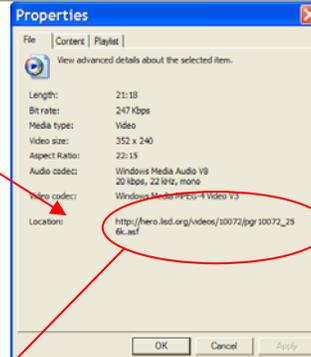

---

5. Go to Properties.

6. Click on the word Properties.

---

7. Highlight and copy the URL located on the Properties page.

http://hero.lisd.org/videos/26802/chp925947 _256K.asf

---

8. **Minimize** United Streaming**.**

9. **Open the web page** where you want to insert the United Streaming video link.

Example

Mrs_ Webster's Class Page

---

10. Click the place on the class or Prof. III web page where you want to insert the hyperlink.

11. Type: "Watch a Video: "

12. Click the Hyperlink button in the toolbar.

    Insert Hyperlink

---

13. In the "**Insert Hyperlink"** window, highlight the text in the **"Text to Display"** space.

14. Type an appropriate description.
    Example:
    Animal Lifecycles – Birds

15. If needed paste (CTRL+V) the URL in the "Address" space.
    (It may have been automatically inserted.)

---

16. Click OK and SAVE the changes.
17. The link on the web page will take users directly into Windows Media Player and the movie will start playing.
